

Endorsement No. 11B – ANTI-THEFT (Rev. Apr. 26, 2005)

It is hereby agreed and understood the policy is amended as follows:

For theft coverage to respond under this policy you must take the following theft deterrent precautions to safeguard the insured property when it is left unattended on the trailer.

1) The trailer must be fitted with a trailer keeper lock specifically designed to immobilize at least one wheel to prevent the trailer from being towed.

And when attached to the towing vehicle,

2) The trailer must be fitted with a trailer hitch lock specifically designed to prevent the trailer from being detached from the towing vehicle.

Or when not attached to the towing vehicle,

3) The trailer must be fitted with a trailer coupler lock specifically designed to prevent the trailer from being attached to a towing vehicle.

** Failure to meet the above conditions will render the theft coverage null and void.
